Elite Spirals

The Professional People in Spiral Stairs

This Landing was manufactured to customers own design and specification using the *Elite* type A Spindles, but using a Wooden Handrail. Landing arrangements can be adapted to suit any situation. All matching components are available as standard.

There is nothing like the natural beauty of hardwood. Stairs available in Oak, Iroko, or Mahogany.

*The
Limbury*

The Limbury

This small but practical Stair was manufactured to gain access into a loft conversion. The Stair features the *Elite* Type B Spindles complete with matching Newell Posts and Acorns.

The Handrail featured is Mahogany.

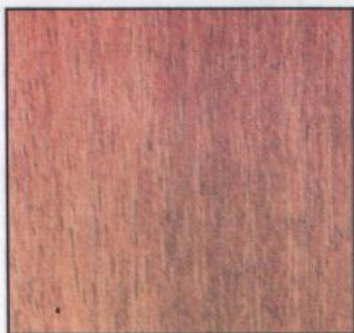

This picture shows the quality of the Hardwood Treads. The landing is fitted with a Hardwood Timber infill to match the Spindles and the Treads. *Elite's* range of Hardwood Stairs are produced in six different sizes, making it possible to install them where space is limited. See Technical Information Sheet enclosed.

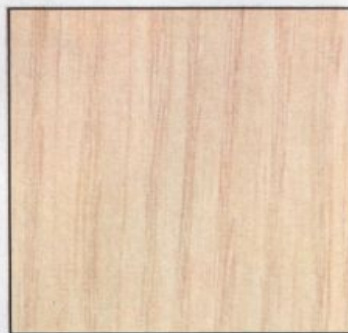

A B C

All the Spindles are turned to the highest standard and are ready for polishing and varnishing. *Elite* offer three different types of Spindles to choose from.
